Business & Individual Income Tax

File your taxes the easiest way possible

We help you balance current year tax incentives and deductions with long-term tax planning in order to achieve the tax balance that is most advantageous for you.

Who We Are

ECS Financial Services is a full-service accounting firm that has been helping individuals and businesses manage their tax responsibilities since 1962. Our experienced tax staff has the expertise and resources to help with all of your business and individual tax needs. We help you balance current year tax incentives and deductions with long-term tax planning in order to achieve the tax balance that is most advantageous for you. Our tax planning services work towards minimizing your tax liability while ensuring that you and/or your business have a plan in place for the future.

Services for Diverse Needs

During your first visit to ECS Financial Services, a tax professional will examine your prior years' tax returns and conduct an interview structured to determine how we can serve you best.

Once we have reviewed all of the necessary information, your ECS tax professional will make recommendations about filing status and strategies to minimize your tax liability and prepare your returns. Your ECS professional is available throughout the process to discuss tax planning opportunities and answer any questions you may have – and our partners are always accessible should you require more sophisticated advice.

Experience

At ECS Financial Services, we take pride in the quality and accuracy of the tax returns we prepare for our clients. That is why every tax return receives an independent technical review by a highly qualified CPA with substantial tax knowledge and experience prior to issue. Throughout the year, we also take an active role in apprising you of tax law changes that result in new opportunities and help you plan long-term strategies.

Our Advantage

ECS is able to analyze the tax impact of investment and wealth management choices to provide a basis for making critical investment decisions. In most cases, advance planning can be a critical step in maximizing the financial benefit and minimizing the tax effect of a transaction.

Business & Individual Income Tax

- Serve individual taxpayers & entrepreneurial businesses, estates & trusts.
- Offer personalized attention and advice from highly qualified CPAs.
- Employ time-tested, cost-efficient procedures developed over the past 50 years.
- Maintain effective quality control procedures to ensure accuracy and maximum tax benefit.
